Let's clear the air

Hertfordshire

We might not be able to see it but air pollution happens when teeny, tiny particles called pollutants are released into the air around us. We can then breathe them in, which is bad for our health. Don't worry though, there are lots of easy things we can do to keep our air clean. Things like walking or cycling to school, or getting the bus more often.

Can you find these words in the wordsearch below?

AIR	DAY	POLLUTANTS
CLEAN	ENGINES	POLLUTION
CYCLE	HEALTH	WALK
