The Heart Research UK (HRUK) Healthy Heart grant scheme has re-opened for applications in Wales.

Not for profit groups, voluntary organisations are able to apply for up to £10,000 for projects that actively promote Heart Health and help to prevent, or reduce, the risk of heart disease.

- Grants for purchases of equipment only, such as exercise equipment, technology, blood pressure monitors, weighing scales etc). This will only be considered if the equipment can be safely used under current social distancing measures and the equipment should be used to promote heart health.
